Second, that this central committee be impowered to group the several educational institutions under the care of such association or associations as it may deem best.

Third, that this committee be appointed at the present meeting of the association and that it, together with the representatives of the several institutions present, hold a conference relative to their interests.

Fourth that all funds contributed for educational purposes by the local churches be seat direct to the Congregational Educational Society. Boston, and redistributed to the colleges and academies.

The Missourl Home Missionary Society occupied the forenoon session, at which the Reverend Doctor M. Burnham presided. The Reverend Harry Blunt, chairman, reported on "State of the Churches," in which he called attention to many points indicating a healthy spiritual condition.

The Reverend Doctor C, H. Taintor spoke in the interests of the Church Bullding Society, and the Reverend Doctor W. M. Jones made his report on the Chicago Theological Seminary. The Reverend Doctor W. P. George reported on Drury College, the Reverend H. Paul Douglass on Rogers Academy, the Reverend M. Pouglass on Willow Springs Academy, and the Reverend Prank Foster on Kidder College. These reports were of a more or less encouraging nature, sithough in some instances there was great need of a more aubstantial support.

A feature of this session was the address of the Reverend Paul Brown of Joplin on "Danises Mossaage to His Own and Our Times," and that of the Reverend Doctor Amory H. Bradford, D. D., moderator of the National Congregational Council. The Reverend Doctor Theo. Cliffon, Western secretary of the Congregational Council. The Reverend Poctor Theo. Cliffon, Leverend Poctor Theo. Resolutions were passed recommending to congregations that they arrange to pay expenses of delegates to the annual meeting especially those of their pastor. Also thanking the First Church for its hospitality in the enterminment of the association.

An omnibus resolution was introduced by the Business Committee, and which will come up as special crider of business his morning, which involved the following points: First, the consolidation of all the benevolent enterprises of the church at large into one General Mission Board. Second, the consolidation of all the hentire field. Third, the arrangement for missionary extension work throughout the church.

Education in the Southwest.

Education in the Southwest American Missionary Association, at last night's meeting, spoke on "The Race Problem in America," Doctor Roy said that the Apostic Paul gave the origin of the race problem; it was the sovereign act of the Creator, and the question now was to inquire for the divine method of solving it

so far as human responsibility is concerned.

"Manifestiy," said the minister, "it must be in accordance with the divine edict by which the Asmighty made of one blood all nations of men." There must be no compromise between the right and the wrong way, no shetgun policy, no rabbery of wages or of suffrage by the nation in the solemnity of its constitutional law."

The speaker opposed the idea of colonizing the negroes, saying that in the first place they would not go to a particular territory, and if they did the results would be disastrous to them and to the general plan of advancing civilization. He referred to the failure of Bishop Turner's plan to export the negroes to Africa.

Following Doctor Roy, the Reverend Doctor J. F. Loha of Evanston, Ill., who spent six months in India, delivered a lecture upon that country, using stereopticon views that added much to the interest of the subject.

The thirty-third annual meeting of the Weman's Baptist Foreign Missionary Soelety of the West, in session at the Delmar Avenue Baptist Church, ended yesterday, and the delegates will to-day disperse to their homes in the Western District of the Baptist Church.

There were three busy sessions. The morning was devoted chiefly to business, though two interesting addresses by Indian m'ssionaries-Misses Louise Tschirch and Thora Thompson-were upon the pro-

The first hours of the session were devoted to a workers' conference, and to reports by State secretaries. Then Miss Tschirch and Miss Thompson of Bassein, Tschirch and Miss Thompson of Busseln, Burma, and Tourngoo, Burma, respectively, told of their experiences while among the Hindoos. Miss Tschirch spoke more particularly of school work, and gave glowing accounts of the spread of the Christian doctrines among the population through the pupils of the Christian schools. Miss Thompson dealt with the evangelistic side

accumits of the spread of the Christian doctrines among the population through the pup is of the Christian schools. Mass Thompson dealt with the evangelistic side of a miscionary's labors among the heathen.

Encouraged by their work in the last year, when \$12,000 was raised for the furtherance of foreign missionary work, the society passed a resolution pledging its members to raise \$20,000 during the coming year. Of this amount \$10,000 is expected to come through the children's branch. Resolutions were also passed expressing a desire to cement together more firmly the Woman's Society and the general missionary society of the Western District.

The resolutions disposed of, the delegates proceeded to elect officers. Mrs. A. T. Scott of Chicago was chosen president; Mrs. Randall of Minnesota, vice president; Mrs. F. Clatworthy of Evanston III. toweign

In the afternoon and evening missionaries of long experience in the Chinese field told of the frunts of their efforts, of the peculiarities of the Orientals, of the amusing and also exciting incidents met with. The Reverend and Mrs. H. J. Openshaw, who, for seven years, were isolated in the extreme western Prov. es of China, close upon Thibetan border, spoke at length. By offering medical nid to the Chinese when affilieted with sickness, the missionaries said offering medical aid to the Chinese when affileted with sickness, the missionaries said
that they had opened a way for the Christian religion and that, to a degree, most
grafffying, had been able to overcome the
doep-tooted traditions of Confucianism, and
Buddhism. At times they were in danger
from uprisings and in 1885 were forced to
free the country. The Openshaws left China
after the Eoxer uprising and are now prepating to return.
Other Chinene missionaries heard were
Doctor Jeschine M. Bixby of Kitvang,
China, and Mrs. Emmis Inveen Uperaft of
Yachau, China. The former's territory was
in the southern nortion of the Empire, while
Mrs. Uperaft was detailed to the western
Provinces.

NEPUBLIC SPECIAL.

Jefferson City, April 24.—Secretary Sam R. Cook to-day chartered the Cape Girardeau and Thebes Bridge Terminal Railroad Company of Cape Girardeau, to construct a consection on Houck's Missouri and Arkansas Railroad near Frensdorf Junction to a point in Scott County opposite Thebes on the hank of the Mississippi River. The road is to be three miles long, and an approach to the Southern Illinois and Missouri Bridge. The directors and shareholders are as follows: J. H. Croader, who owns all of the Hobers capital stock except four shares, which are held by J. A. Hawking, T. A. Proctor, E. C. Gyles and F. F. Lincoln, all of Cape Gillardeau, who own one share each. on Car Service. The association is composed of 243 members, representing practically all the railways in Mexico. Canada and the United States. Its semiannual meeting was begun here yesterday, and will last throughout the day.

Testerany a cont of railes for the operation of double-track railways was adopted. There are seventeen new rules suggested by the committee, whose report was submitted to-day, beating on car service. Under the present system, treight carn, when they are loaned by one road to another, are paid for on a basis of the number of miles they run while loaned. It is contended by the opportents of this system that there is no accurate way or telling how far the cars are run, and also that cars are frequently side-tracked and lost sight of for cays at a time, during which they are not used. It is proposed to impose a per diem charge for the use of the treight cars.

The association vetted to accept the report of the Committee on Car Service, recommending the adoption of a per diem charge to take the place of the present minese charge. The recommendation will go to me various railroads for a center bailed. The change, if the bailot is favorance, will go into effect July 1. Detroit was selected us the place for the October meeting of the association.

Race Problem in India.

Doctor Loba agreed with the other speaker, that studying the race problem in India was, in some respects, similar to a study in America, for the reason that the people there are of many eastes, of more religions and of many Gods, but, by giving them the gospel of Christ, they may be cemented, at last into the kingdom of the true God, which regulates all things.

President Fuller stated that Kidder College was founded in 1854, Drury in 1873, Iberia in 1880, Rogers in 1882. He recommended that no change be made in the plan of ordination adopted at Kidder a few years ago; that no new educational institution be founded until the resent ones were on safe footing; that the hurches should be encouraged to more liberally support the colleges already established; that more young men should be encouraged to enter the ministry; that more extended Bible courses should be adopted by all the colleges and academies.
